## COMBAT ATTACKS

**BREATH WEAPON:** Close Quarters Attack +7 vs PD; *Hit* 3d6;  
**BASIC MELEE ATTACK:** Attack +2 vs AC; *Hit* 3d6-1;  
**BASIC MISSILE ATTACK:** Ranged Attack +5 vs AC; *Hit* 3d4+2;  
**SPELL CASTING:** Charisma Attack +8, +1/+5 Damage

## ONE UNIQUE THING

I'm a memory of a lost race—am I even really here?

## RACIAL POWER AND ABILITIES

**BREATH WEAPON:** Gain breath weapon attack, once per battle.

## FEATS

**HIGH WEIRDNESS ADVENTURER:** Roll new weirdness when rolling Iconic warp.

**WHIFF OF SORCERY ADVENTURER:** Twice per day, you can gather power as if you were a sorcerer in order to deal double damage with either a sorcerer spell or a chaos mage spell the next time you cast a spell. You also gain the chaotic benefit for gathering power.

**BLOOD OF WARRIORS:** As described on 13 True Ways p23.

## CLASS FEATURES, TALENTS, POWERS, AND SPELLS

**SEPARATE EXISTENCE:** You are ever-so-slightly detached from normal physical reality. You can cast ranged spells while engaged with enemies without taking opportunity attacks.

**SPELLS PER DAY:** 3, 1 Encounter spell per level.

**ICONIC WARP:** Your magic provides you with a random warp effect when the next spell you cast will be an iconic spell.

When your random spell choice indicates an iconic spell, roll a d6 to determine the effect you'll gain from the elemental warp. Even though you can't cast the spell until your next turn, the warp effect applies now.

- Air:** Randomly determine two icon associations for the spell you'll cast instead of one. Choose one of those associations to use for that spell.
- Earth:** Until the end of your next turn, you gain a bonus to PD and MD equal to your Intelligence modifier.
- Fire:** Until the end of your next turn, you gain the onceper-battle racial power of a random nearby ally; ignore this benefit if it duplicates your own racial power or if it doesn't make sense during the battle (human, for example).
- Water:** Until the end of your next turn, you gain a bonus to saves equal to your Intelligence modifier.
- Metal:** Until the end of your next turn, critical hits scored against you only count as normal hits.
- Void:** Until the end of your next turn, when you cast a daily iconic spell, roll a hard save (16+). If you succeed, you don't expend that use of a daily spell slot, but you still can't cast that specific daily iconic spell again until you take a full heal-up.

**WHIFF OF SORCERY:** You gain a random spell from the sorcerer class. Whenever you take a full heal-up, randomly choose a sorcerer spell of the highest level you can cast.
